## EXPERIENCE

### **Software Engineering Instructor**

iD Tech – New York, NY

June 2024 – July 2024

- Taught programming in Java and game development in Unreal Engine 5 to students ages 7-17.
- Managed classes of up to 12 students, prioritizing the safety, education, and well-being of each student in a fast-paced environment.

### **Creative Developer Intern**

Monira Foundation – Jersey City, NJ

January 2024 – May 2024

- Revamped and debugged the non-profit's CMS-driven website, improving content management and maintenance efficiency.
- Designed graphical content for social media, increasing public engagement for exhibitions, residencies, and events.
- Led collaborative projects with international artists, facilitating their realization through communication, planning, and execution.

### **Full-Stack Web Developer**

ROC-HCI Lab – Rochester, NY

October 2023 – May 2024

- Developed and maintained Rochester HCI lab's AI-driven disease screening tool, facilitating the early detection and treatment of Parkinson's disease.
- Improved UI, responsiveness, and performance using modern front-end and back-end technologies to enhance user experience.

### **Software Engineer/Consultant**

Sentinel Technology – Seoul, South Korea

March 2021 – May 2023

- Developed security software used by governmental organizations, preventing 10,000+ cases of personal information leaks on the web.
- Managed over 10 clients, providing over-the-phone and in-person customer support.
- Traveled on-site to lead meetings with clients and provide in-person technical assistance.
