

Joo Eon Park

Creative Technologist based in Brooklyn

EXPERIENCE

Free Agency®

New York, NY / **E-commerce Developer** Dec 2025–Current

Directed the digital brand transformation for the NY-based fashion brand, through custom web design, Shopify development, logo design, and newsletter production.

Boosted online sales and conversion rates by optimizing site architecture for SEO, performance, and a streamlined UX.

Freelance

New York, NY / **Web & Graphic Designer** May 2025–Current

Developed a bespoke digital archive for artist Allen Topolski, enhancing user engagement and work visibility through an intuitive interface tailored for fine art curation.

Created high-impact social media assets for NY Fashion Week and live music venues, driving a measurable increase in audience engagement and ticket conversions.

TeachPrint

Rochester, NY / **Studio Assistant** September 2023–May 2025

Facilitated art workshops for educators and students, empowering participants with new printmaking methods and fostering a collaborative learning environment.

Produced a series of instructional videos on printmaking, broadening the access of printmaking techniques for a global audience of over 350k viewers.

Monira Foundation

Jersey City, NJ / **Creative Intern** January 2024–May 2024

Developed high-impact visual assets for community events, driving an increase in event attendance and organic social media engagement.

Maintained a high-volume WordPress environment, managing the deployment and optimization of 100+ digital assets and web pages.

Sentinel Technology

Seoul, S. Korea / **Full-stack Developer** March 2021–May 2023

Developed security software used by governmental organizations, preventing 10,000+ cases of online personal information leaks.

Managed over 12 clients, serving as the primary technical contact to refine client relations, resulting in increased retention and sales.
