EXPERIENCE

Web Designer & Developer

Freelance – New York, NY

May 2025 – Current

- Collaborated with clients to design and build customized websites with modern web technologies.
- Independently managed freelance responsibilities, such as billing, maintenance, and customer support.

Printmaking Studio Assistant

TeachPrint – Rochester, NY

September 2023 – May 2025

- Developed accessible print techniques with printmaker Mizin Shin.
- Organized and ran workshops for art educators and students in NY.
- Produced online educational videos to improve the accessibility and quality of art education.

Design Intern

Monira Foundation – Jersey City, NJ

January 2024 – May 2024

- Developed and managed CMS website, improving content management efficiency.
- Designed graphical content for social media, increasing public engagement for exhibitions, residencies, and events.
- Led technical troubleshooting of PCs, printers, and projections for exhibitions, events, and internal use.

Full-stack Web Developer

Sentinel Technology – Seoul, South Korea

March 2021 – May 2023

- Developed security software preventing 10,000+ cases of personal information leaks on the web.
- Managed over 10 clients, providing over-the-phone and in-person customer support.
- Managed troubleshooting and deployment of internal software/hardware on Mac, PC, and Linux environments.
